

Pharmaceutical ResearchTasks & Instructions — CodeAlpha

Pharmaceutical Research — Internship Overview

This internship program provides practical exposure to pharmaceutical sciences and research methodologies. CodeAlpha is committed to nurturing future professionals in drug discovery, formulation, and development. The internship equips students with skills to understand drug design principles, analyze pharmacological data and evaluate regulatory aspects of pharmaceuticals. Interns will gain hands-on experience through literature reviews, case studies and research-based projects. Guided mentorship and practical assignments will prepare interns to contribute effectively to the pharmaceutical industry, academic research and healthcare innovation.

Internship Perks

- Internship Offer Letter
 - Completion Certificate (QR Verified)
 - Unique ID Certificate
 - Letter of Recommendation (based on performance)
 - Job Opportunities / Placement Support
 - Resume Building Support
-

Instructions for Interns

1. Share your internship status on **LinkedIn**, tagging **@CodeAlpha**.
 2. Complete the **assigned projects** within the mentioned time frame.
 3. Upload your complete file to **Google drive**:
`CodeAlpha_ProjectName`
 4. Post a **video explanation** of your project on LinkedIn.
 5. Submit your completed task using the **Submission Form**.
 6. **Complete any 2 or 3 out of the 4 tasks** listed below (from your domain).
-

Pharmaceutical ResearchTask List

(Complete any 2 or 3 of the following tasks)

TASK 1: Literature Review on Drug Development

Choose any **FDA-approved drug in the last 5 years**.

- Prepare a **literature review** (1500–2000 words) covering:
 - Drug discovery process
 - Clinical trial phases
 - Therapeutic applications
 - Market impact
 - 👉 Submit in PDF with proper references.
-

✓ TASK 2: Case Study – Drug Formulation

Select a **common dosage form** (tablet, capsule, injection, ointment).

- Explain the **formulation process**, excipients used, stability factors, and challenges.
 - Add diagrams/tables if needed.
 - 👉 Submit as a 6–8 slide presentation (PPT/PDF).
-

✓ TASK 3: Pharmacovigilance & Adverse Drug Reaction (ADR) Analysis

Select a **drug with known side effects**.

Prepare a report on:

- Mechanism of action
 - Reported ADRs (from WHO/DrugBank database)
 - Measures to reduce risks
 - 👉 Submit report (2–3 pages).
-

✓ TASK 4: Mini Project – Role of AI & Biotechnology in Pharma

Prepare a **mini research project (5–6 pages)** on one of the following:

- AI in drug discovery and repurposing
 - Biotechnology in vaccine development
 - Nanotechnology in targeted drug delivery
 - 👉 Submit in PDF format with citations.
-

Important Note

Internship Completion Criteria:

To be eligible for the internship certificate, participants must complete a minimum of **two or three tasks**. Submitting only one task will be considered **incomplete** and certificates will **not** be issued in such cases.

Submission Details

A submission form will be shared in your respective **WhatsApp group**. You are required to submit your completed task only through that form. Please follow the instructions mentioned in the form carefully to ensure your submission is accepted.
