

Power BI Tasks & Instructions — CodeAlpha

Power BI — Internship Overview

This internship program offers practical experience in business intelligence and data visualization using Power BI. CodeAlpha is a leading software development company focused on transforming raw data into meaningful insights. The internship empowers students to work with Power BI Desktop and Power BI Service to create interactive dashboards, reports, and data models. Interns will learn data cleaning, DAX formulas, Power Query, and how to connect various data sources for real-time analysis. With expert mentorship and real-world projects, interns will develop the skills to turn complex data into clear, actionable insights for decision-makers.

Internship Perks

- Internship Offer Letter
 - Completion Certificate (QR Verified)
 - Unique ID Certificate
 - Letter of Recommendation (based on performance)
 - Job Opportunities / Placement Support
 - Resume Building Support
-

Instructions for Interns

1. Share your internship status with us on **LinkedIn**, tagging **@CodeAlpha**.
 2. Complete the **assigned projects** within the mentioned time frame.
 3. Upload your complete source code to **GitHub** in a repository named:
`CodeAlpha_ProjectName`
 4. Post a **video explanation** of your project on LinkedIn with GitHub repo link.
 5. Submit your completed task using the **Submission Form**.
 6. **Complete any 3 or 2 out of the 4 tasks** listed below (from your domain).
-

Power BI Task List

(Complete any 2 or 3 of the following tasks)

TASK 1: Financial Health Dashboard

Objective: Develop a dashboard analyzing an organization's **financial status** with real-time insights, perfect for **SMEs**.

Key Requirements:

- Visualize **income statements, balance sheets, and cash flows**.
- Analyze **profitability trends** over time.
- Provide **forecasting** for budgeting and financial planning.

Deliverable: An interactive Power BI report with dynamic visualizations and actionable insights.

✓ TASK 2: Human Resources Analytics

Objective: Create a dashboard to **analyze and optimize HR processes** and workforce management.

Key Requirements:

- Track **recruitment metrics** and **employee turnover rates**.
- Analyze **employee satisfaction** and **performance data**.
- Implement **predictive analytics** for forecasting hiring needs.

Deliverable: An interactive Power BI report aiding HR decision-making.

✓ TASK 3: Real Estate Market Trends

Objective: Build a dashboard to analyze **real estate market dynamics** for investment and development decisions.

Key Requirements:

- Analyze **property prices** and **rental yields**.
- Track **market demand, supply conditions**, and **economic indicators**.
- Use **geographical visualizations** like heat maps for identifying market hotspots.

Deliverable: Interactive Power BI report offering deep insights into real estate trends.

✓ TASK 4: Educational Performance and Resource Allocation

Objective: (Content missing, but presumably...)

Develop a dashboard to evaluate **student performance** and optimize **resource allocation** in educational institutions.

Expected Features:

- Visualize academic performance metrics.
 - Analyze resource usage and identify gaps.
 - Support data-driven decisions in education management.
-

Important Note

Internship Completion Criteria:

To be eligible for the internship certificate, participants must complete a minimum of **two or three tasks**. Submitting only one task will be considered **incomplete** and certificates will **not** be issued in such cases.

Submission Details

A submission form will be shared in your respective **WhatsApp group**. You are required to submit your completed task only through that form. Please follow the instructions mentioned in the form carefully to ensure your submission is accepted.
